

STARTING POINT  
studio

Empowering young creatives to impact their community

## Creative Media Alternative Provision

A supportive, small-group environment where pupils can explore their creativity, and can make a difference through sharing their views on projects that can be shaped to impact the local community.

Creative activities within each project often include; graphic design, photography, video production, research and communication.

Starting Point AP is designed to enable pupils to build confidence, be heard and encouraged, while also teaching creative media skills and helping them discover and grow in their abilities.

We are a registered **AQA Unit Award** provider and pupils will be registered on the scheme and be able to gain unit awards.

To find out more about our Alternative Provision offering, see our website: [startingpoint.org.uk/schools](http://startingpoint.org.uk/schools)

### WE CAN COME TO YOU!

We can partner with your school to design and implement a short-term project focused on a specific topic.

Contact us to explore further.

One morning a week, 9.30am – 12pm,  
based at our offices in centre of Reading.

**COST:** £500 per place for 10 sessions
