FONE & GET OUTSIDE!

THERE'S
BETTER
THAN
SU

Who is Responsible?

Every Single One of you
could be Responsible.
But the main emitter
is USA & China. Just
because its them doesn't
mean YOU HAVE TO TAKE

ACTION!

What CAN YOU DO?!

You can stop littering and polluting
oceans or marine wildlife will increase.

You can also prevent cutting trees and
safe waters

STOP CLIMATE
CHANGE!

WHY:

* Animals are going Extinct

LION POPULATION
is decreasing

SIDE

HOW TO PREVENT CLIMATE CHANGE?

Stop using cars to travel to short distances instead walk, cycle or scooter.

Start using electric cars instead of petrol or diesel cars because they don't leave carbon emissions!

Conserve energy - by switching the light of, closing the tap etc.
